Office of the Dewan of Mysore.

NOTE.

Dated...23rd November...1914

Letter dated 26th October 1914 from Mr. S. G. Sastry, London, praying for the enhancement of his scholarship to the extent of £ 41/11 per year and also for the grant of subsistence allowance to his family.

The Secretary, E. & A., will kindly peruse the letter and pass on to the Secretary, General & Revenue Departments with his observations for being brought up at the next meeting of Council for informal discussion and orders. The orders may be communicated to the applicant promptly.

2 Mr. Arnold's letter seems to require notice.

45 To J. G. of Edn, Comptroller, Gdl. Ad
to Indian Students London
no 2096-8, dated 22/12/14.
Sanctions a lump sum grant of £50
to Mr Garalapurasastri from the Damodar
Das funds.

Submitted to His Highness.

Not under disposal
our Enclosure.

18

(1) These papers relate to the request of Mr. Garalapuri Sastri, a Damodar Das scholar in England, for the enhancement of his scholarship by £41-11-0 per year and also for the grant of subsistence allowance to his family.

Q

(2) Mr. Garalapuri Sastri was first granted a Damodar Das scholarship of Rs. 100 per mensem to study in the Indian Institute of Science, Bangalore, for a period of 3 years from 3rd July 1912. He was then granted a Damodar Das scholarship of £200 per annum for 3 years, in Government Order No. 2196-8/Edn. 346-12-5 dated 20th August 1913, to study applied Chemistry in special relation to the industry of soap and candle-making, wood distillation and purification of oils. He has been studying in England and drawing his scholarship from 1st October 1913.

R

W

(3) A loan of £30 was also sanctioned to him in Government Order No. 7800-2/Edn. 168-13-6 dated 13th February 1914, and the amount was paid to him in March 1914.

S

(4) On account of the present war in Europe, all Government scholars in Great Britain have been allowed in Government Order No. 3-5/Edn. 2-14 dated 22nd September 1914 to overdraw their scholarship by £15.

O

(5) On the recommendation of the Inspector General of Education regarding a course of apprenticeship to be served by Mr. Garalapuri Sastri, the Inspector General has been informed on 23rd November 1914, that Mr. Garalapuri Sastri may himself be asked to suggest a course of practical apprenticeship and that if Government approve of it, they will pay for the course at £500 a year for a period of two years.

2.
Enclosure
to.
Paper under disburse.

(6.) Now the scholar requests that his scholarship of £200 per annum may be increased by an amount of £41-11-0 per year to enable him to meet his extra expenditure in England, and that a subsistence allowance may also be sanctioned for his family.

Page 3 of office
notes.
(Edn 2-14).

(7.) The Council are of opinion that no increase of scholarship is necessary, but that a lumpsum of £50 may be paid to him for the purchase of instruments, special fees, &c.

Page 5 of office
notes.

(8.) The Financial Secretary agrees to the proposal and to the amount being met from the Damodar Das Fund.

(9.) The recommendation of the Council may be graciously sanctioned.

1
EDUCATIONAL ADVISER TO INDIAN STUDENTS,

21, CROMWELL ROAD,

S. KENSINGTON, LONDON, S.W.

30th October 1914.

Su
2-14
34

Sir,

I beg to forward an application from Mr. S.G. Shastri for an increase of his scholarship. He is a hard working and well behaved student and I strongly recommend his application to your kind consideration. He is obliged to follow a course of study that is unusually expensive both as regards fees and current expenses for apparatus and other material. In the case of Government of India technical scholars all such fees are paid by the Secretary of State, and, occasionally, additional grants are made in cases where the course of instruction is particularly costly. If His Highness' Government decides to accede to Mr. Shastri's request I am confident that the money will be entirely put to good use.

Yours faithfully,

T.W. Arnold.

Educational Adviser.

2

SOUTH KENSINGTON,

LONDON, S.W.

26. 10. 14.

To.

M. Visweswariah, Esq. M. I. C. E., C. I. E.,
Dewan of Mysore, Bangalore.

Sir,

Since my arrival here I have been finding that the College life is very expensive and as such I have not been able to manage with £200/- a year. This year also I have been faced with the same difficulty with a greater stress consequent upon this European war.

On the average I require not less than £3/- per week for my dining and lodging, for my luncheon and tea outside, travelling expenses to and from the College, for the ordinary necessities of life etc. This would amount for £156/-. This year I am to pay a fees of £15/- at the Imperial College of Science and Technology. At the University College I am to pay a fees of £11/1/- as a research student in Organic Chemistry £3/- at the Battersea Polytechnic for Courses of lectures on Oils, fats, Crudes and Toilet Soaps. Total for fees only will come up to £29/11/-.

Next comes the expenses with regard to books, apparatus etc. I shall not require much for books this year; about £6 will suffice. —

Apparatus and Chemicals. I do not know how much I shall have to spend on this. Last year I had to spend about £18/- for apparatus, chemicals, Engineering instruments etc. This year

IMPERIAL COLLEGE OF SCIENCE AND TECHNOLOGY.

(ROYAL COLLEGE OF SCIENCE)

SOUTH KENSINGTON.

(2)

LONDON, SW.

I shall have to spend for apparatus and Chemicals only. All the ordinary chemicals are supplied. We are to buy all the special ones, and we must buy our own apparatus. Since the commencement of the war the price of scientific glass goods and Organic Chemicals have been doubled and sometimes have gone up even higher, for the very simple reason they were all being imported from Germany. I am afraid it will be sometime before these scientific necessities are placed on the market by the British manufacturer. I shall probably require double the amount I spent on apparatus and Chemicals, for another reason also, and this is I shall be working in three different places on four different subjects.

- (1) Chemical Engineering. Mondays and Fridays 9 am. to 5 pm.
- (2) Battersea Polytechnic. Mondays and Fridays 7 pm. to 10 pm.
- (3) University College. Organic Research. Tuesdays Wednesdays and Thursdays. 8-30 am. to 5 pm.

I shall on the whole be requiring not less than £15/- this year for my apparatus and Chemicals.

The next item of expenditure is dress. This year I shall require not less than £10/- If I may be permitted to add a detail here, a dress suit for evening wear will alone cost me about £6/6/- Without this evening dress I cannot take part in any of the social functions of the College, and last year I could not get this side of the College life at all for want of proper dress.

IMPERIAL COLLEGE OF SCIENCE AND TECHNOLOGY.

(ROYAL COLLEGE OF SCIENCE)

SOUTH KENSINGTON,

LONDON, SW

(2)

In Connection with the Various Societies in the College and outside, for my income tax, for my life insurance etc. I require about £10/- [Chemical Soc: £2/-, Income tax 15/-, life insurance, £5/7/2 etc]. I shall have to join the Society of Chemical Industries and this is becoming more urgent.

For my recreation, sports etc Ordinarily and travelling during the holidays whenever necessary I require at least £15 per annum.

Totalled up it will come up to £241-11-0.

I have ~~be~~ been put to very great trouble for want of sufficient funds. Even in India I have been put to the necessity of contracting some debts on account of my wife and child. I am not getting any family maintenance as other Mysore students here are getting, and this matter has been a source of great anxiety for me. I request the Government to kindly grant the family maintenance allowance in my case also, and to have it paid to my wife, at Kabitthavilas, Chamaraja Agrahar, Mysore, India.

With regard to my expenses here I have furnished the details to the Government and they can see the just nature of all the items of expenditure. I shall not be able to carry out the full programme of my work if the Government will not kindly enhance my scholarship to the required extent. Constant worries for want of funds in a foreign land

IMPERIAL COLLEGE OF SCIENCE AND TECHNOLOGY.

(ROYAL COLLEGE OF SCIENCE)

SOUTH KENSINGTON,

(6)

LONDON, S.W.

For all good and legitimate purposes will seriously interfere with one's studies, and one has to make most of one's time in benefitting himself in learning new things while he is on a short stay in such ~~the~~ enlightened countries as England.

I hope the Govt will consider the above points favourably, and grant my requests.

I shall feel very much obliged if early orders are passed on this application.

I remain, Sir,
Yours obediently
S. G. Saksby
